

Paper Roll Dinosaurs

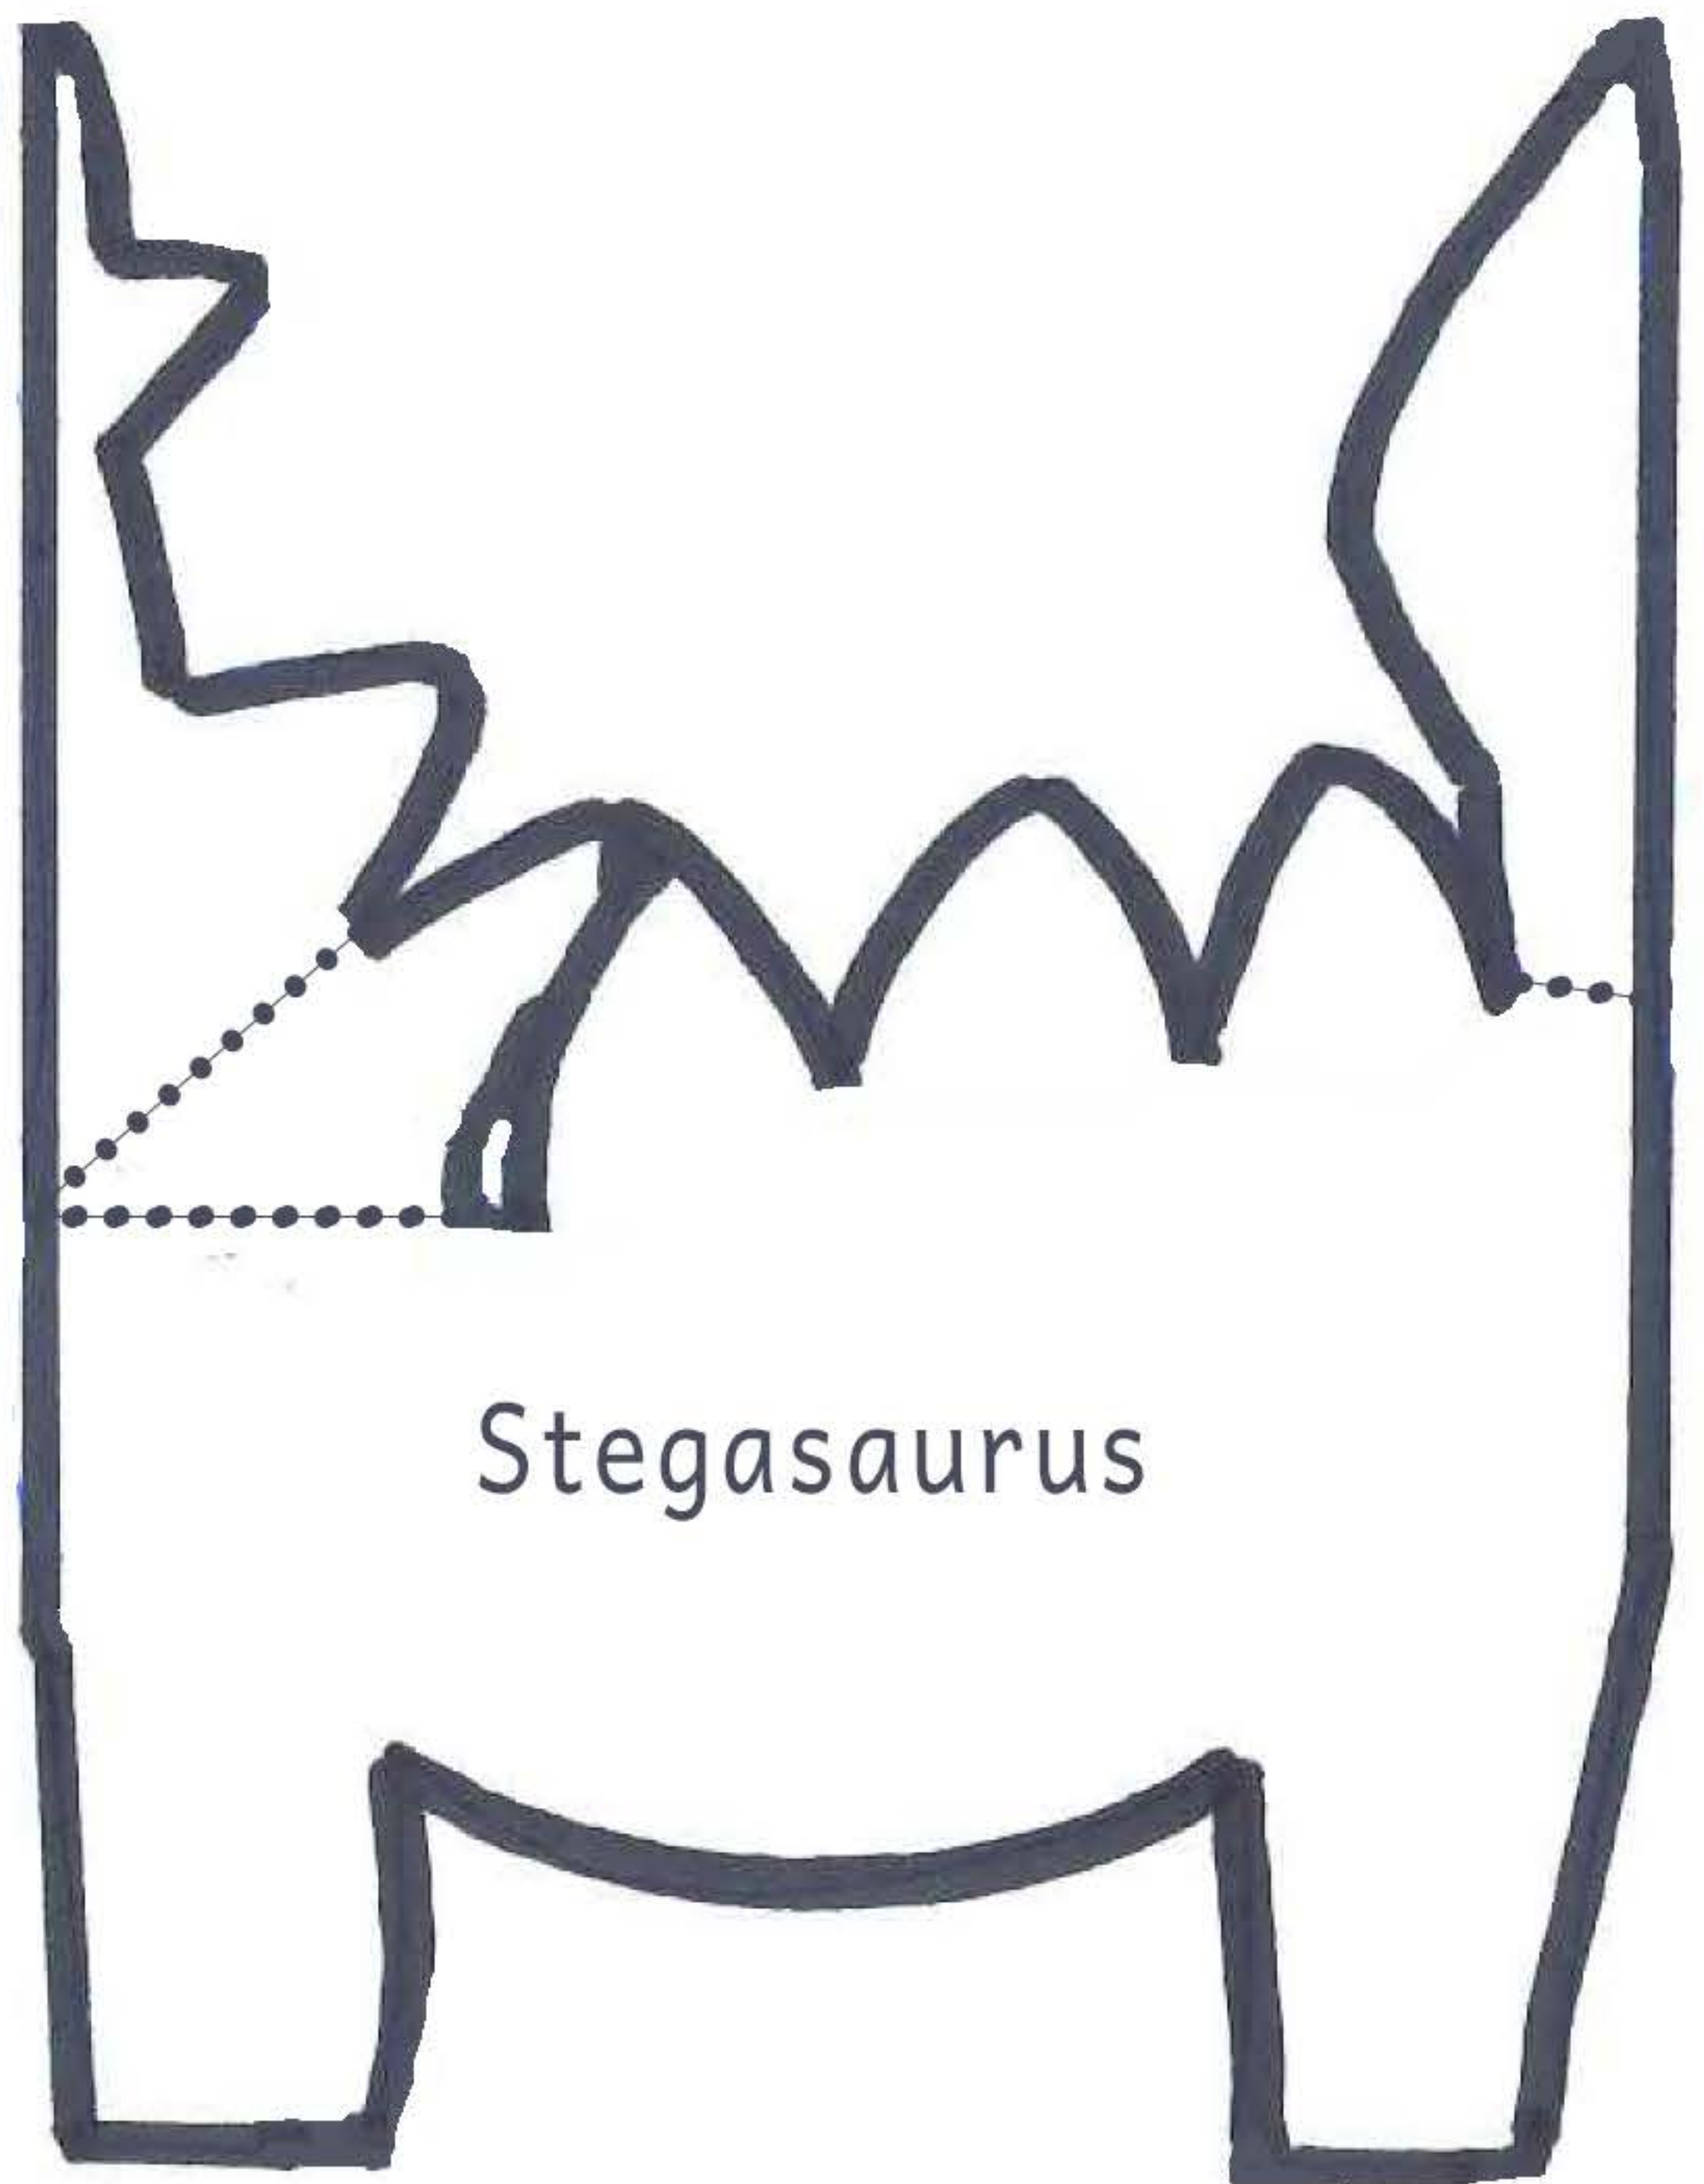

Use empty toilet paper or paper towel rolls and the provided templates to create mini dinosaurs. Trace shape along flattened paper rolls and cut along solid lines. Dotted lines indicate where to bend to form the shape of a dinosaur. Use paint, colored pencils, or crayons to add details to the face and body.

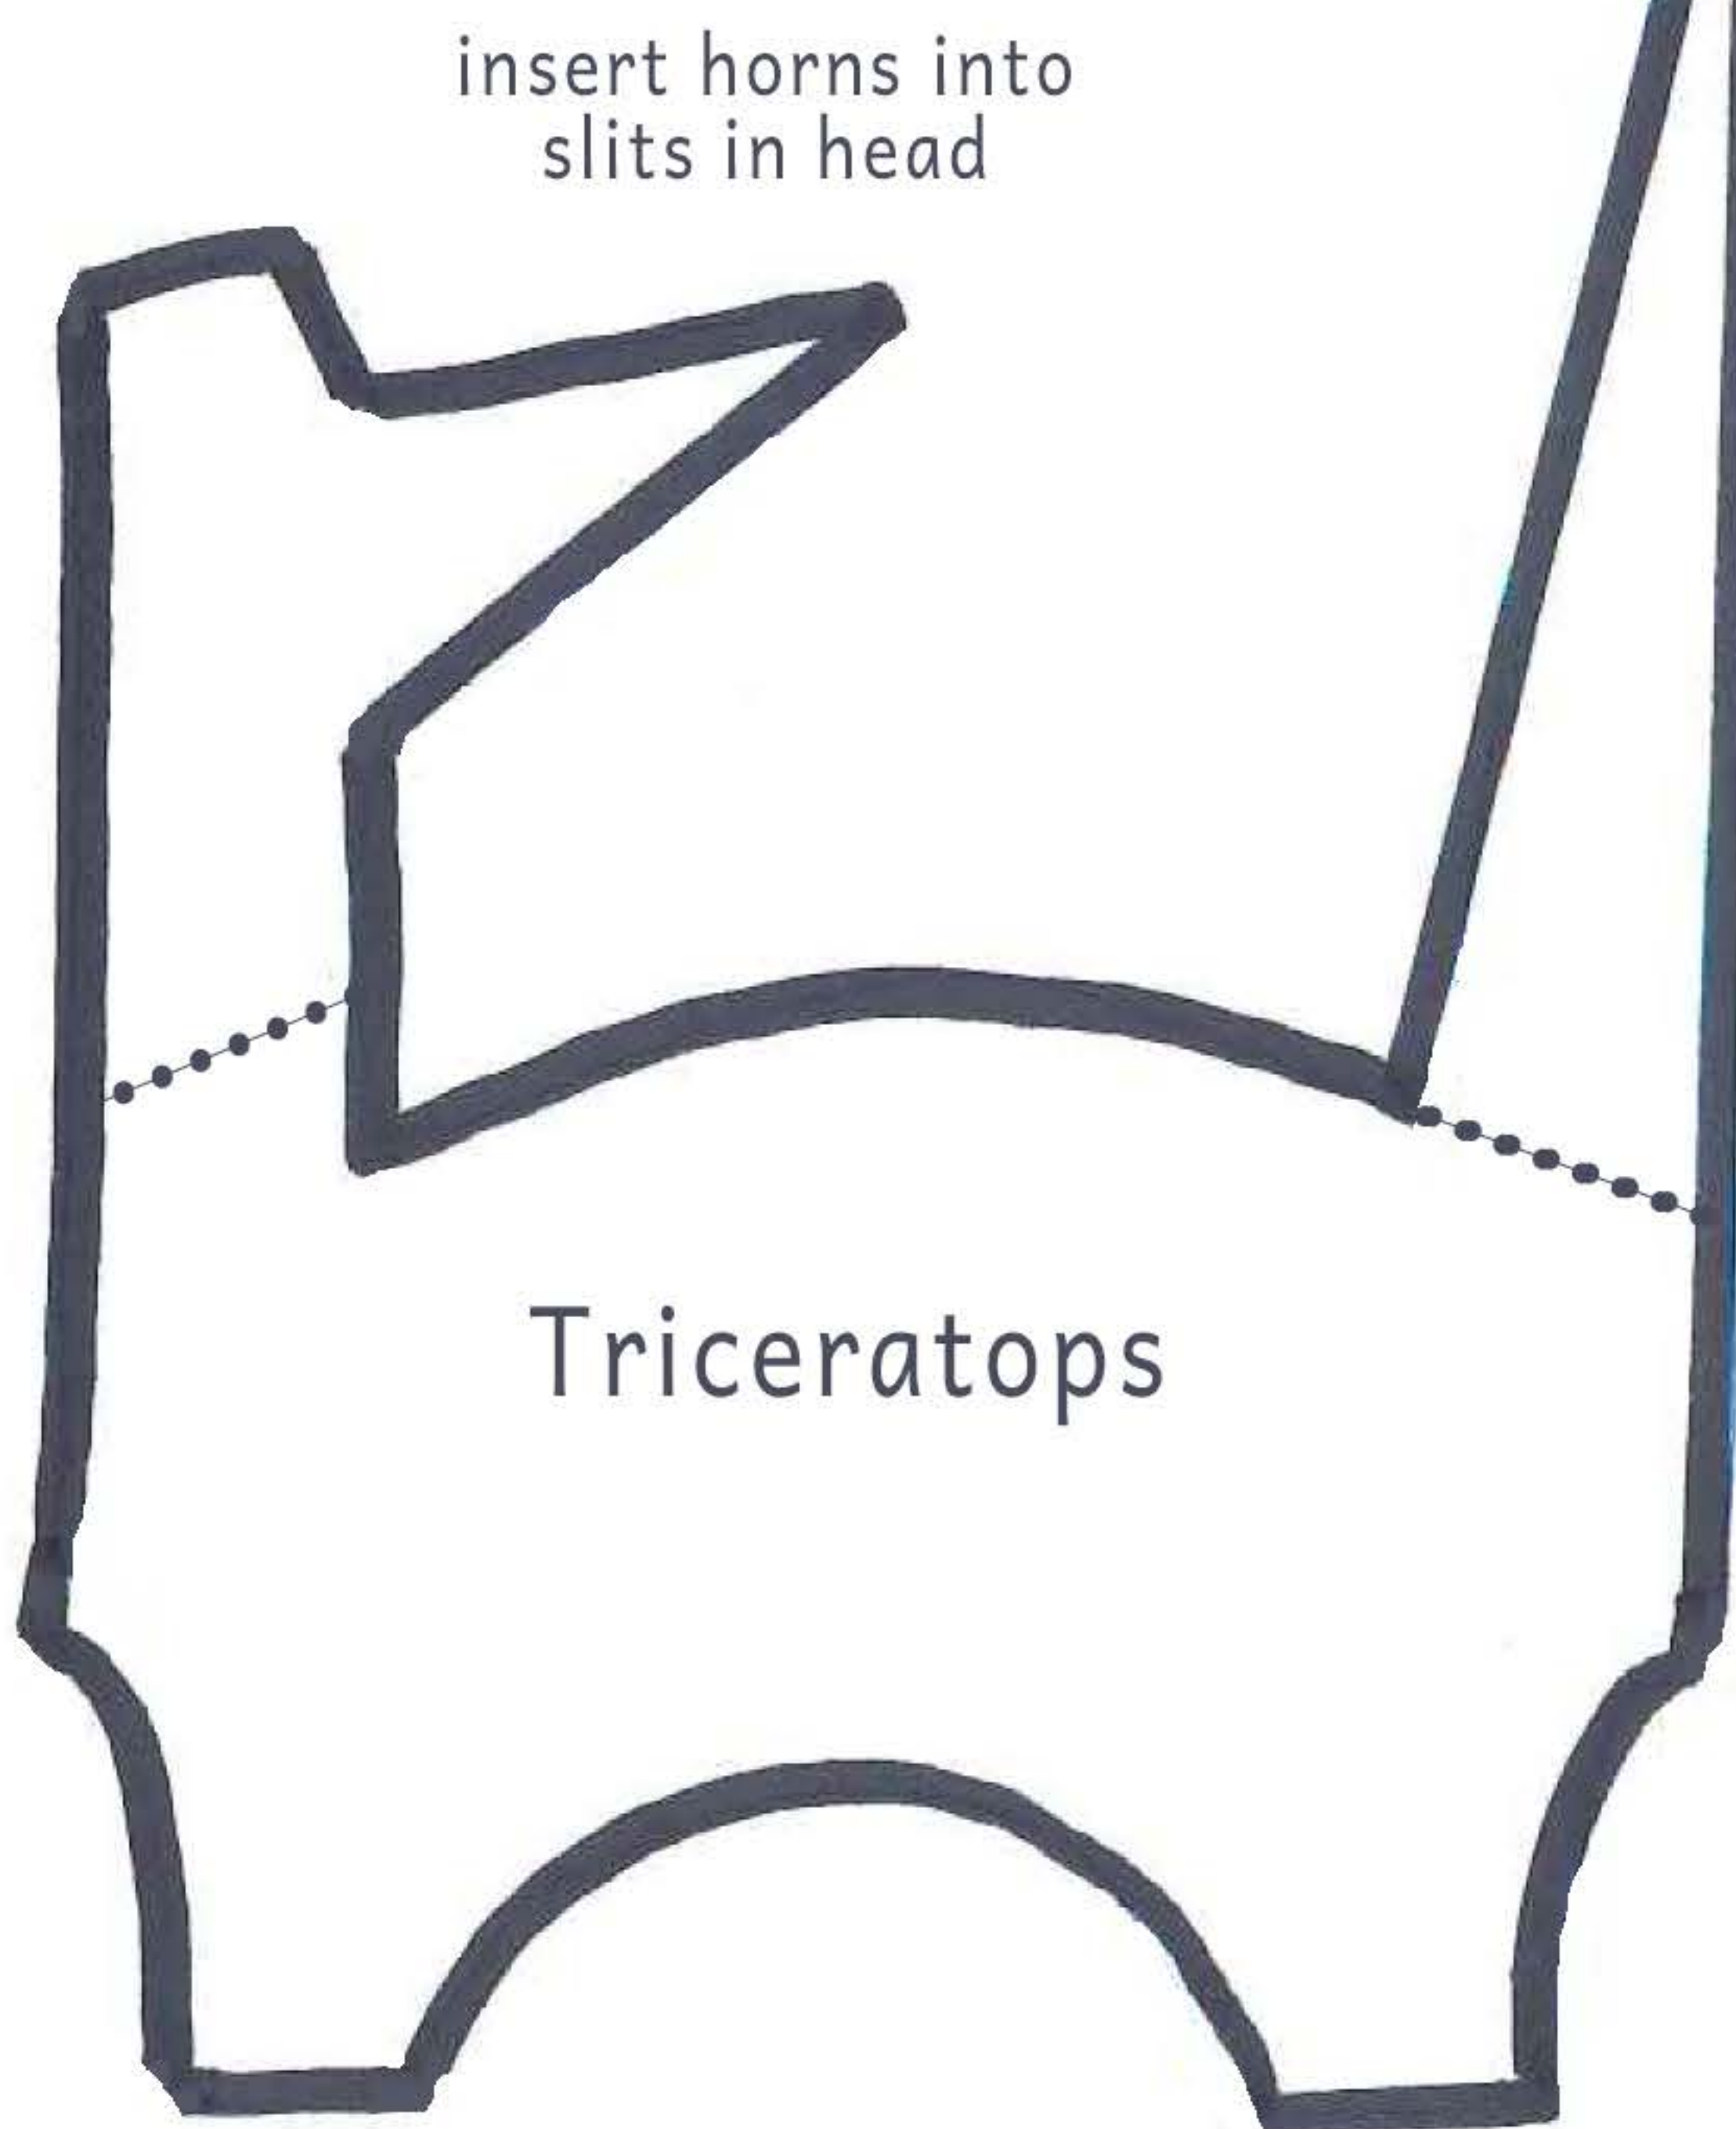

Tyrannosaurus
Rex

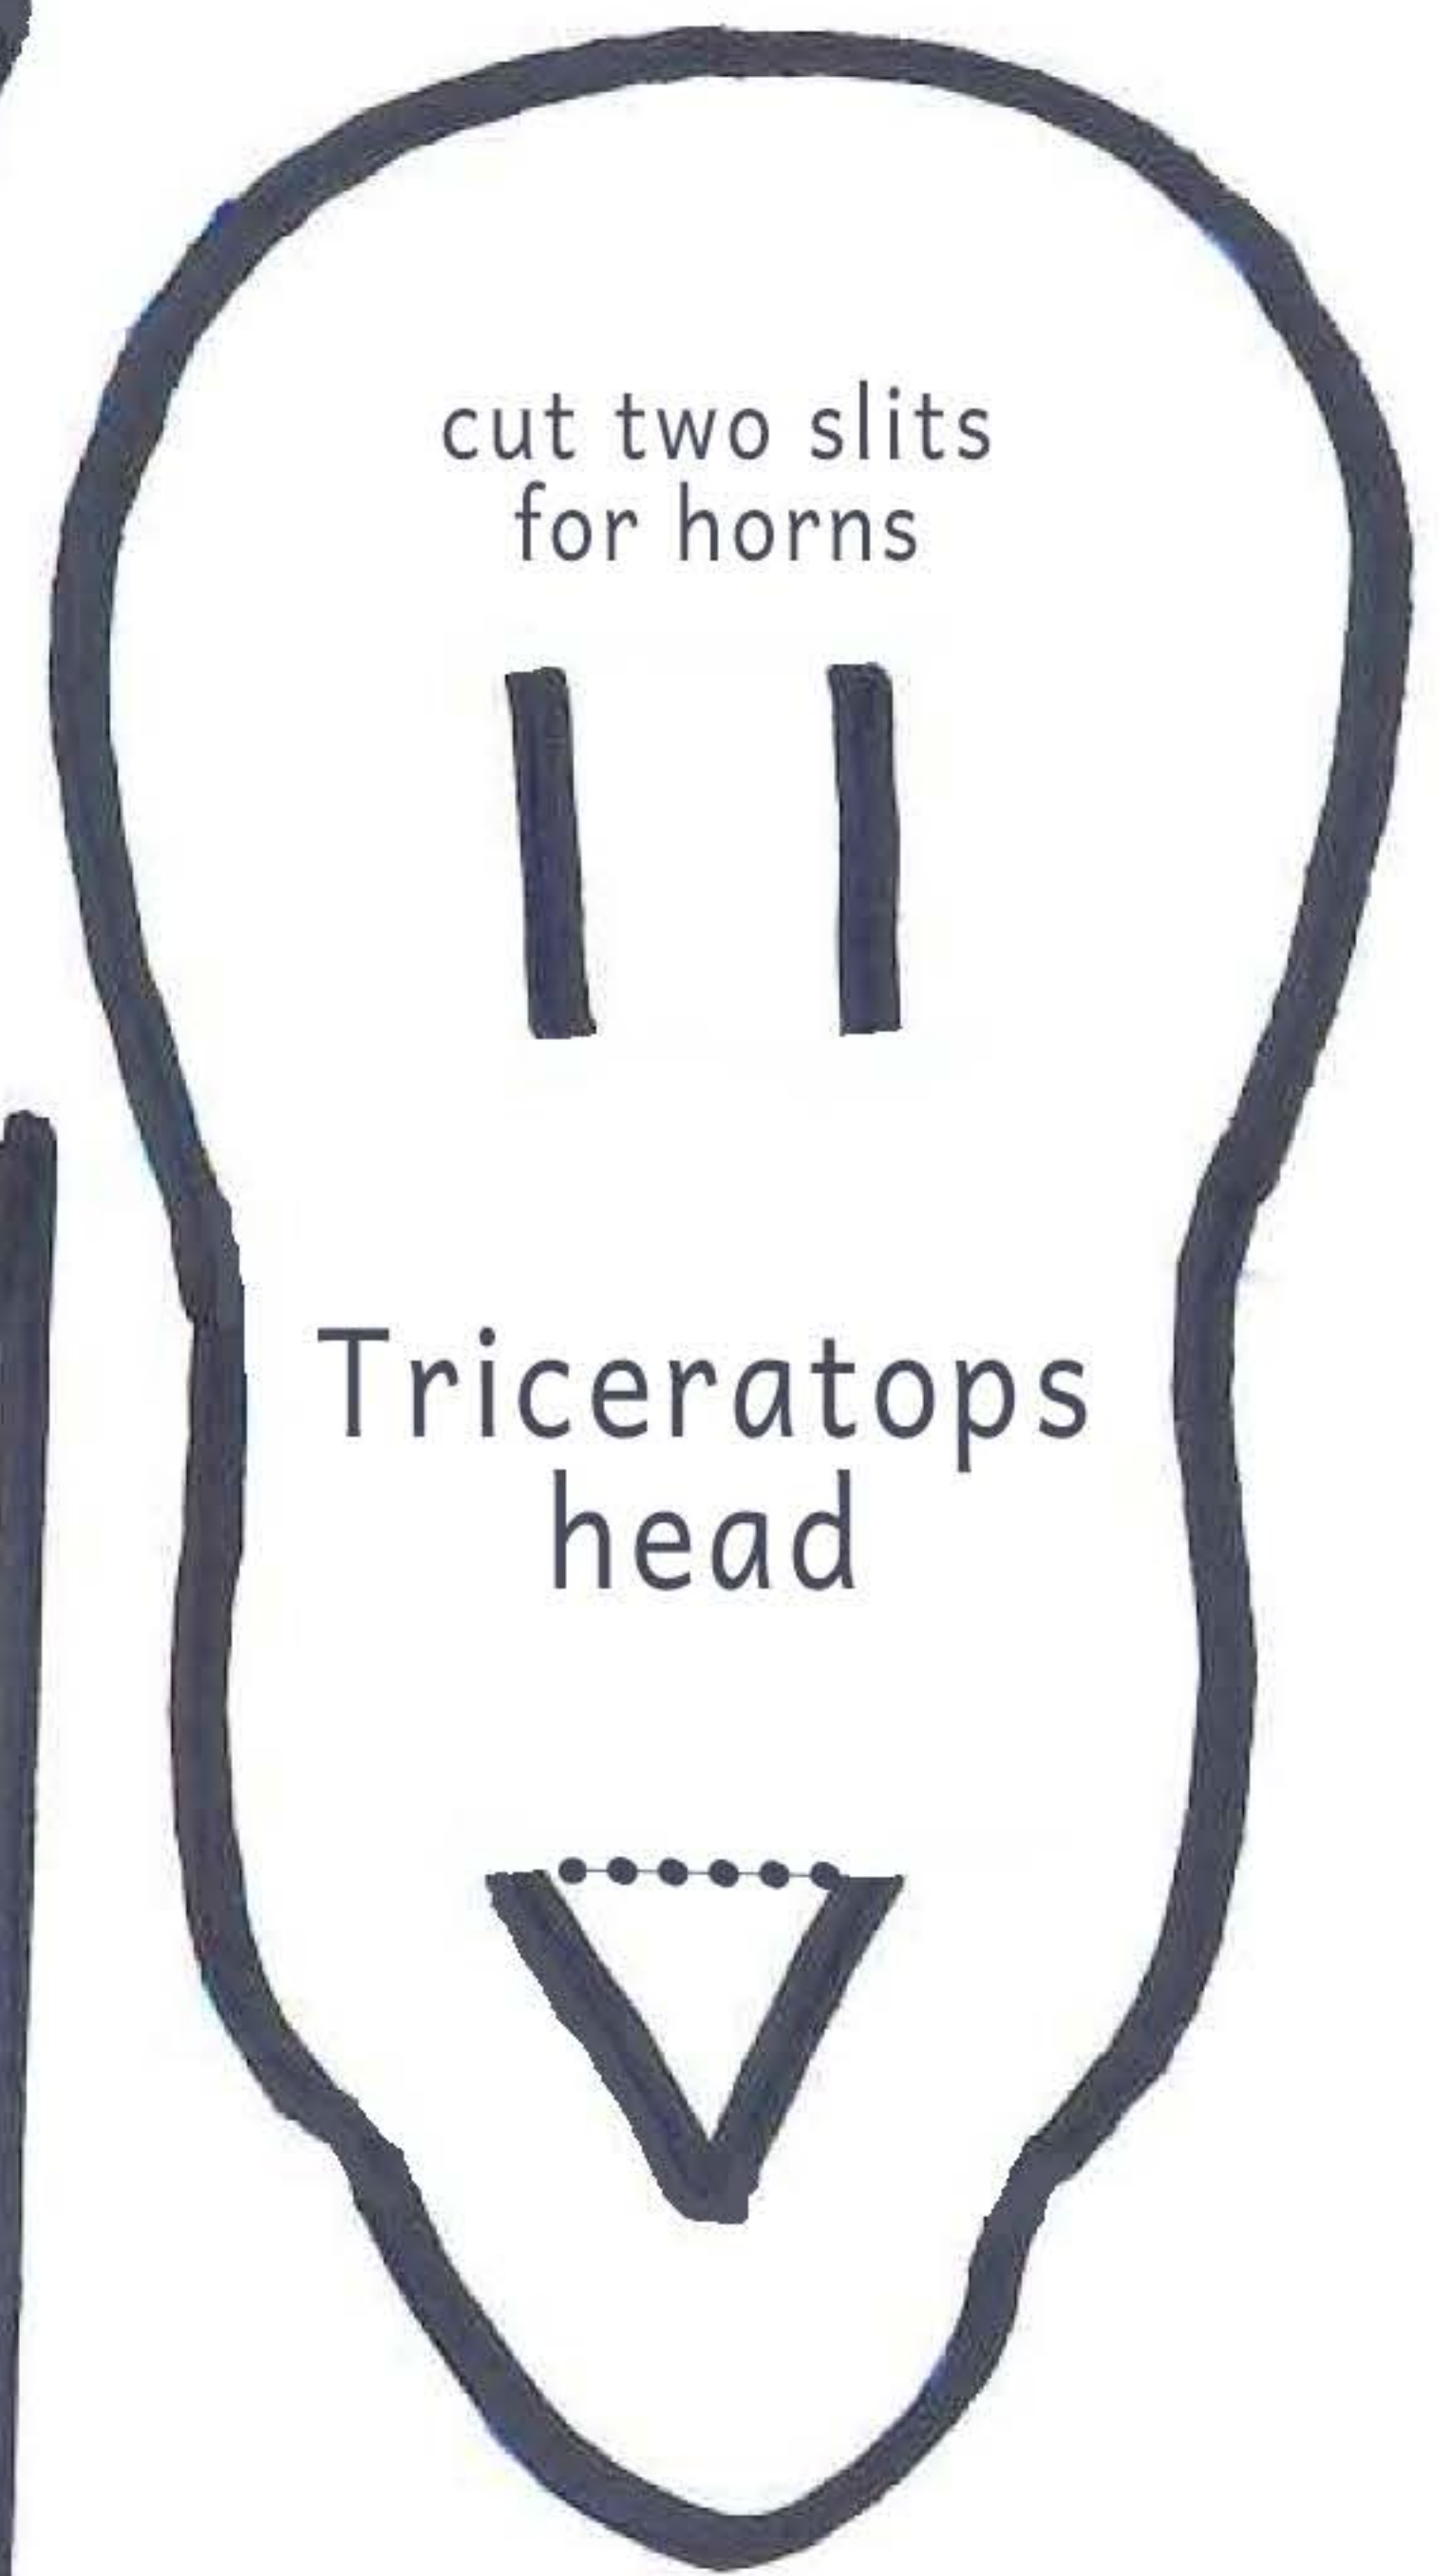

Diplodocus

Stegosaurus

Triceratops

cut two slits
for horns

Triceratops
head

insert horns into
slits in head
